

May 13, 2021

Dear Resident and Families,

I am pleased to share with you that we will be opening the Fitness Zones more fully at Deupree House and Marjorie Lee beginning today!

We no longer need to supervise residents exercising. Here are a few guidelines are in place to ensure we comply with the current standards:

**Fitness Zones:**

- You no longer need to sign up in advance. Residents and staff need to sign in at the fitness desk.
- Maximum of 6 people (residents and staff) exercising at one time. The 7th person would need to wait outside the fitness zone until a person finishes.
- Residents need to wear their emergency pendants in the Fitness Zone and pool areas.
- Only vaccinated staff are permitted to use our fitness zones.
- Masks are not required while a person is actively exercising.
- People who do not live together must maintain social distancing of a minimum of 6 feet.
- Individuals must disinfect equipment after use.

**Swimming Pools:**

- If using the pool area, you must have a buddy when swimming.
- The pool is not open to family members that are visiting.
- The Deupree House locker rooms are not open at this time since we are not fully staffed in our housekeeping department.

Again, I am so pleased to share this information with you. If you have questions, please reach out to Chloe Hough

Sincerely,

Laura Lamb  
President & CEO
