

January 19, 2022

Dear Residents and Families,

In Affordable Living, a staff member at Praire Oaks tested positive for COVID-19 and is quarantining at home.

At Marjorie Lee, two direct care staff members who work across various households and a two residents on the Berghammer Household have tested positive for COVID-19 and are quarantining at home or their rooms. Additionally, we have an occurrence of symptoms at MPL as well.

Many of you have asked about our suspension of group activities that we announced at the beginning of January. Today we have decided that we will be cautiously reimplementing some group activities on a case by case basis. For example, wellness, spiritual, and life enrichment activities that can be held while social distancing in small groups will begin to be offered over the next several days. We will add activities on a community and household basis in consideration of what is happening in a given area to balance safety and the need for social connectedness. Look for postings in your individual communities regarding updates and planned activities.

The following is the cumulative reporting for our CCRCs since March 2020:

| <b>COVID-19 Reporting</b>  | <b>Episcopal Church Home</b> | <b>Deupree House &amp; Cottages</b> | <b>Marjorie Lee</b> |
|--|------------------------------|-------------------------------------|---------------------|
| <b>Residents</b>   |                              |                                     |                     |
| Current residents with confirmed COVID- 19   | 0                            | 0                                   | 2                   |
| Cumulative residents with confirmed COVID-19   | 46                           | 14                                  | 36                  |
| <b>Staff*</b>  |                              |                                     |                     |
| Current staff with confirmed COVID- 19   | 0                            | 0                                   | 2                   |
| Cumulative staff with confirmed COVID- 19  | 67                           | 38                                  | 113                 |
| <b>3 or more residents or staff with new-onset COVID-19 respiratory symptoms in a 72-hour period</b> |                              |                                     |                     |
| Current occurrences  | 0                            | 0                                   | 1                   |
| Cumulative occurrences   | 12                           | 12                                  | 31                  |

\*Private duty and contracted staff are reported to our residents and families, however, are not included in the cumulative chart above based on reporting guidelines by the city and state.

Please let me know if you have suggestions and questions.

Sincerely,
