

January 26, 2022

Dear Residents and Families,

With the COVID-19 transmission rate remaining “High” throughout the various counties and states that we serve, it will not surprise you that ERS has experienced a record number of resident and staff cases in the month of January. **For this reason, we will continue COVID-19 surveillance testing for residents in all levels of care at MPL, DH, and ECH, as well as staff from these communities throughout the month of February.** The administrators will be sharing the testing schedule for staff and residents within their communities over the next few days.

For reporting today, a non-direct care staff member at Episcopal Church Home has tested positive for COVID-19 and is quarantining at home. At Marjorie Lee, a non-direct care staff member has also tested positive and is quarantining at home.

In Affordable Living, a resident at Trent Village has tested positive for COVID-19 and is quarantining in their apartment. Additionally, a resident from Maple Knoll Meadows has tested positive and is hospitalized at this time.

The following is the cumulative reporting for our CCRCs since March 2020:
