

Episcopal Retirement Services

June 29, 2020

Dear Residents, Staff, and Families:

Last Tuesday, June 23, the Ohio National Guard was at Marjorie Lee (MPL) to conduct mandatory testing of all staff at MPL. We received the test results. I am pleased to share with you the great results!

- The National Guard tested 256 staff, private duty and contracted staff
- We had one positive test result and one inconclusive test. The positive staff member was reported to you last week. This is NOT a new case. The staff member works on the Residential Living household and is isolating at home. The inconclusive test was of a private duty, who is being retested.
- Of the 255 tests results received, with one positive result, we have a 0.39% occurrence rate.

With the national averages of 25-50% occurrence rate after whole staff testing, our results demonstrate that protocols are working! I hope it motivates you, as it does me, to continue all the things that have brought us to this point. Specifically, please continue to do the following:

- Wear your facemasks when in public
- Practice social distancing
- Practice proper hand and cough hygiene
- If you are having symptoms of COVID, stay home and self-quarantine
- Stay away from crowds and gatherings

As a reminder, Episcopal Church Home had an occurrence rate of 0% during their state-mandated testing in May. Deupree Houses' testing is tentatively scheduled for mid-July. We will share more details as they become available.

We do not have additional cases to report at this time. Staff and residents reported last week remain isolated and are doing well.

There are no further updates about other cases of COVID-19 in ERS communities. The following is our weekly update and cumulative reporting for our communities.

COVID-19 Reporting	Episcopal Church Home	Deupree House & Cottages	Marjorie P. Lee
Residents			
Current* residents with confirmed COVID-19	0	0	0
Cumulative residents with confirmed COVID-19	0	0	2
Staff			
Current staff with confirmed COVID-19	0	0	0
Cumulative staff with confirmed COVID-19	0	0	9
3 or more residents or staff with new-onset COVID-19 symptoms in a 72-hour period.			
Current occurrences	0	0	0
Cumulative occurrences	0	0	3

*“Current” is defined as new cases that have not been previously shared.

Please let me know if you have any suggestions or questions.

Sincerely,

Laura R. P. Lamb
 President & CEO
