

Episcopal Retirement Services

October 1, 2020

Dear Residents and Families,

I am pleased to share with you that we had great results during our last surveillance testing for our staff. During our routine testing last week, we tested 590 staff and private duties. 100% tested were negative for COVID-19. What an accomplishment!

The following is the breakdown for each campus:

- Deupree House and Cottages: 160 tests
- Episcopal Church Home: 164 tests
- Marjorie Lee Retirement Community: 266 tests

ECH also tested 88 residents, and all were negative for COVID-19. Deupree House resident testing from this week is still pending.

Please join me in congratulating the staff. I realize that this is a snapshot in time; however, it demonstrates our staff's concern for our residents and one another! Please let me know if you have any suggestions or questions.

Sincerely,

A handwritten signature in black ink that reads 'Laura R. Lamb'.
