Dear Residents and Families,

We have an occurrence of respiratory symptoms to report today for Deupree House and Cottages. An occurrence is defined as three or more residents or staff with new-onset COVID-19 respiratory symptoms in 72 hours. All of those with symptoms have been tested, and we are awaiting results. There are no trends noted.

Additionally, we had a direct care staff member on our Shaw rehab area at Marjorie Lee, who has tested positive for COVID-19. The staff member is quarantining at home. Residents and staff exposed have been tested for COVID-19. The results for the resident testing have come back, and all residents were negative. Staff results are pending.

Lastly, a resident residing on the Amstein Household at Marjorie Lee has tested positive for COVID-19 during our surveillance testing. The resident is asymptomatic. The Amstein Household quarantine will be extended due to this positive case.

On a positive note, the three indeterminant tests from Episcopal Church Home have come back negative. Therefore, all of last week’s tests were negative. Ironically, all test results from this week’s Tuesday testing at ECH are already back. All tests were negative.

The following is the cumulative reporting for our communities:

<b>COVID-19 Reporting</b>	<b>Episcopal Church Home</b>	<b>Deupree House &amp; Cottages</b>	<b>Marjorie Lee</b>
