

Ever wonder how the loved one in your life is doing today?

introducing... **HOW'S mom**

**How's Mom?** is a digital solution to connect you to your loved one's well-being. It provides quick, specific wellness communication directly between you and those who have daily interactions with your senior.

Daily updates include information on your senior including...

Their general disposition

Their treatment

How they rested

If they ate and drank well

Social interaction with others

- Tracking is fast, simple and easy for caregivers
- Information is easy for families to find and evaluate
- Calendar of your loved one's history helps to spot trends
- Saves time by communicating information to multiple family members at a time
