

# Master Plan Updates

Information related to our upcoming renovation

Keeping our residents informed about the Master Plan is a top priority.

## Starting Anew

Who doesn't like a blank slate at the beginning of a new year? Well that is certainly what we have at Marjorie P. Lee in three more areas: Lee Gardens, Amstein House and the 4th floor of the Victoria building in Residential Living.

The space that was Lee Gardens and Amstein House has been almost completely demolished. As many walls have come down and floors come up we have prepared the infrastructure for the new and improved areas.

The newly remodeled areas will see many new enhancements. There will be more private rooms. Some that will be shared are redesigned for

added privacy. Instead of a privacy curtain there will be a wall separating the room and it will be connected by a "Jack and Jill" bathroom in the center that has access from both sides. This is a vast improvement over our previous double occupancy rooms.

There will be design changes to the way in which the common space is used as well. Previously there was a large nurse station taking up a great deal of space that was not for residents to use. The nurse station is gone and the office functions of the household will be redistributed to smaller areas throughout.

On the other side of Marjorie P. Lee we have started the renovation of the 4th floor. This space will be a memory support household like Morris and Kirby Houses. Now the entire 4th floor will be secured. There will be spacious apartments and large living room. They will share the kitchen and dining room with the existing Kirby House.
